### Academy of Arts

We welcome the Christian theatre team from Taylors, South Carolina as they present *Creation, Evolution & the Flood*. This fast paced, multi media dramatic presentation will take you through the biblical creation week and contrast it with the foibles of evolutionary theory.

The choric speaking cast will double as students in a classroom where they will learn, along with you, the finer points of the biblical account of creation and how the fossil record supports the worldwide flood of the Bible.
